Software Engineering student

## SKILLS

- Great skill in analysis and problem solving.
- Optimal team and independent performance.
- Ability to work on several tasks at the same time and under pressure.
- Experience in Assembly, C, C#, Java, Python, HTML, MySQL, NoSQL, Unity, CI/CD and Agile Methodology.
- Experience in Big Data tools, Apache Spark, Jupyter Notebook y Databricks among other.
- Participate in 2 Dedalus Datathon challenges, related to ML, winning the second prize of one of them.
- Big Data course in UPM managed by header in Big Data department from StrateBI.
- Level B2 with C1 certification by the British Council Aptis ESOL.

## JOB EXPERIENCES

### Teacher

2022

- I was working for a few months with ESO and high school students (Sciences).
- I have always liked helping others, I believe that if you know about something you should use that knowledge to improve the lives of others. And become a teacher is one of the best ways to achieve it.
